If the maximum entries are not fully used by the eligible National Federations, other National Federations that have no or only one entry may register for the available entries. In this case a National Federation may only get a maximum of 2 entries per discipline. The application for additional entries is made by the registration for the respective preliminary round.

The allocation of the free entries is as follows:

- 1) National Federations which do not have a regular entry in the corresponding discipline will be considered with one entry first.
 - 2) Then all National Federations with one regular entry will receive one additional entry.
 - 3) Then National Federations from 1) can get a second entry.
 - 4) If there are more registrations than there are free entries available, the date of receipt of the registration is decisive.
